What to measure and when to return.

START HERE

Your first-week checklist

Check these off before you read the rest. No scoring theory — just execution.

- ☐ **Post at least 2x per week, every week** — You are at 0.23 posts/week against a reference average of 2.24/week. That gap is costing you points
- ☐ **Add Burlington or Halton to your bio** — Zero of the 20 local terms checked appear in your bio. This single omission is one reason Local Visi
- ☐ **Add a CTA verb to your bio** — Your bio currently contains no action word. Sales Readiness is at 56/100 partly because of this gap.
- ☐ Comment on 5 local accounts (real replies, not spam)
- ☐ Save this page — check profile visits + DMs on day 7

Print or screenshot this page. Come back on day 7 to compare profile visits, saves, comments, and DMs.

Your account is **present but underpowered** — the opportunity is consistency and local signals, not starting over.

RHYTHM SNAPSHOT

0.2 posts/week in the last 30 days · 720 followers · Review on June 27, 2026

Do these first

Ranked by leverage. The matrix shows impact vs effort — execute top-right first.

High impactLow impact

Quick wins

Major projects

Fill-ins

Reconsider

1

2

3

4

5

Low effortHigh effort

1

Post at least 2x per week, every week

You are at 0.23 posts/week against a reference average of 2.24/week. That gap is costing you points across both Content Performance and Competitor Gap. Schedule two posts this week — one before Friday, one on the weekend. Use content you already have: a client result, a workflow screenshot, or a question for your audience.

Content Performance + Competitor Gap — up to 50pts combined · Medium

2

Add Burlington or Halton to your bio

Zero of the 20 local terms checked appear in your bio. This single omission is one reason Local Visibility scores 0/100. Open your profile, tap Edit, and add "Burlington, ON" or "Serving Halton businesses" to your bio text. Takes under two minutes.

Local Visibility — up to 20pts · Low

3

Add a CTA verb to your bio

Your bio currently contains no action word. Sales Readiness is at 56/100 partly because of this gap. Add a line like "Book a free demo" or "DM me to see if I can help."

Your remaining priorities

4

Tag your location and add `#Burlington` or `#HaltonBusiness` to every post

Only 3 of your last 50 posts carry a location tag, and 0 of 50 captions mention any local term. Both signals carry 20pts each under Local Visibility. On each new post, tap "Add location," select Burlington, and include at least one local hashtag such as `#BurlingtonON` or `#HaltonSmallBusiness` in your caption or first comment.

Local Visibility – up to 40pts · Low

5

Trim captions to under 450 characters

Your captions average 669 characters against a category average of 447. Shorter captions reduce friction for time-pressed small business owners — your stated target audience. Before posting, cut any sentence that restates something already said. Aim to make one point per caption, then stop.

Content Performance – incremental · Low

Your 30-day plan

BotLogix - AI Solutions (@botlogix) · Burlington, Halton

· Today you post about **0.2/wk**. This plan targets **3 posts per week (Tue / Thu / Sat)** with copy-paste actions — not theory.

Weakest score today: Local — most of Week 1 focuses here. **Watch:** @cajucreates, @boxymarketing, @dmxmarketing.

WEEK 1 · FIX THE FOUNDATION

Profile + local signals

- Day 1–2: Rewrite bio — city, who you help, one offer, one CTA (DM / link).
- Day 3: Save 3 Story highlights: Services, Proof, FAQ.
- Day 4: Publish one “who we help in [city]” carousel (5 slides).
- Day 5–7: Comment on 5 local business posts/day (real sentences, not emojis).

WEEK 2 · POST WITH A RHYTHM

Content that matches what competitors win with

- Post 3×: proof (before/after or testimonial), FAQ, behind-the-scenes.
- Use hashtag set from this deck on every post (8–12 tags).
- Add location tag + city name in first line of caption.
- Study one Reel from @cajucreates, @boxymarketing, @dmxmarketing — note hook + length, then publish yours.

Your first week

One action per day · **15–30 minutes** each · vertical timeline below.

Day 1 — Fix the Foundation (15 min total)

ACTION Add "Burlington" or "Halton" to your bio. Something as simple as "AI automation for small businesses in Burlington & Halton" satisfies the geo signal that is currently missing and costs nothing. (5 min)

EXAMPLE Replace `#mobilemonkey` and `#botlogix` in your saved hashtag set with `#burlingtonbusiness` and `#haltonsmallbusiness`. These are the geo hashtags your account is not using at all right now. (5 min)

WHY Add your city in the "Location" field under Edit Profile if it is not already there. (2 min)

Day 2 — Draft Your First Post (30 min)

ACTION Write a caption answering one question your ideal client asks before buying: "What does an AI agent actually do for my business?" Keep it under 447 characters — the category average your captions currently exceed. Draft it in your notes app first, not directly in Instagram. (20 min)

EXAMPLE Cut any caption line that does not move the idea forward. Aim for one idea per post, not three. (10 min)

WHY Cut any caption line that does not move the idea forward. Aim for one idea per post, not three. (10 min)

Day 3 — Refine the Post (20 min)

ACTION Read your draft aloud. If a sentence sounds like a brochure, rewrite it as a sentence you would say to a client over coffee. (10 min)

EXAMPLE Check your emoji count. Your recent content runs at 1.0 emoji per 100 characters, double the category average of 0.5. Reduce to one or two emojis total for this post. (5 min)

WHY Confirm your hashtag set includes `#burlingtonbusiness`, `#haltonsmallbusiness`, `#marketingautomation`, and `#aimarketing` alongside your existing tags. (5 min)

Day 4 — Publish (15 min)

ACTION Post your drafted content with the updated hashtag set. Your current posting rate is 0.23 posts per week. The reference average for accounts in your category is 2.24 posts per week. Publishing today is the highest-leverage action this week. (10 min)

EXAMPLE After posting, reply to any comment within the first hour. With an engagement rate currently at 0.00% across tracked posts, every response signal matters. (ongoing)

WHY After posting, reply to any comment within the first hour. With an engagement rate currently at 0.00% across tracked posts, every response signal matters. (ongoing)

Your first week *(continued)*

Day 5 – 7 – Repeat the Cycle (30 min)

ACTION Draft and publish a second post before Day 7. Use the FAQ format: pick one more question a potential client asks and answer it plainly in under 447 characters.

EXAMPLE Each post this week is a data point. You are not building a campaign. You are establishing a baseline.

WHY Each post this week is a data point. You are not building a campaign. You are establishing a baseline.

Where to add Burlington signals

Bio — city + offer + CTA

Captions — Burlington in line 1–2

Hashtags — 3 local tags every post

Instagram profile

Name · Bio · Link

Highlights · Posts · Reels

Location tag on posts

Reels — city on screen text

Geotags — every local post

Comments — 5 local accounts/week

Local score today: **0/100**. You are not invisible — you are under-labeled for Burlington, Halton.

How you compare

Same category, real competitor posts. Use this to adjust rhythm — not to copy creative.

METRIC	YOU	MARKET AVG
Posts / week (30d)	0.2	~2+ typical
Avg caption length	669 chars	447 chars
Avg hashtags / post	16.9	5.9
Top format	carousel	reel

WHAT TO DO WITH THIS

Match caption discipline, post more often than you are now, and use the market's top format at least once this week.

Who to watch (and what to steal)

Three **local** accounts near Burlington, Halton and three **reference** accounts that show what already works in your category.

Local — Burlington, Halton

Nearby peer@dmxmarketing

4.4K followers · 613 posts

Does well: Clear carousel mix that's easy to scan.

Borrow: Structure: carousel + claim hook. Write in your voice.

Avoid: Copying their exact creative or voice.

Nearby peer@candyboxmarketing

3.3K followers · 617 posts

Does well: Clear reel mix that's easy to scan.

Borrow: Structure: reel + description hook. Write in your voice.

Avoid: Copying their exact creative or voice.

Nearby peer@cajucreates

1.2K followers · 179 posts

Does well: Question hooks that invite comments.

Borrow: Structure: carousel + question hook. Write in your voice.

Avoid: Copying their exact creative or voice.

Reference models

Reference@motherlondon

93.0K followers · 7.5K posts

Does well: Strong audience (93.0K) with repeatable carousel.

Borrow: Study their carousel pacing — borrow layout, not brand.

Avoid: Copying their exact creative or voice.

HASHTAG ECOSYSTEM

Hashtag sets that support discovery

Hashtags will not save weak content, but they help Instagram understand **location**, **topic**, and **audience**.

LOCAL HASHTAGS

Paste into ChatGPT

Copy any prompt below into ChatGPT. Edit the output in your voice before posting.

DAILY INSTAGRAM POST

Act as a social media strategist for a Burlington, Halton marketing agency called BotLogix - AI Solutions (@botlogix). Write one Instagram caption (under 120 words) for today. Use a clear hook, simple language, local angle for Burlington, Halton, and end with a CTA to start a conversation.

CAROUSEL

Act as a social media strategist for a Burlington, Halton marketing agency called BotLogix - AI Solutions (@botlogix). Write a 5-slide carousel outline with headline per slide. Use a clear hook, simple language, local angle for Burlington, Halton, and end with a CTA to start a conversation.

REEL SCRIPT

Act as a social media strategist for a Burlington, Halton marketing agency called BotLogix - AI Solutions (@botlogix). Write a 30-second Reel script with on-screen text suggestions. Use a clear hook, simple language, local angle for Burlington, Halton, and end with a CTA to start a conversation.

LOCAL AUTHORITY POST

Act as a social media strategist for a Burlington, Halton marketing agency called BotLogix - AI Solutions (@botlogix). Explain one way a Burlington, Halton business can improve local visibility on Instagram. Use a clear hook, simple language, local angle for Burlington, Halton, and end with a CTA to start a conversation.

CLIENT PAIN-POINT POST

Act as a social media strategist for a Burlington, Halton marketing agency called BotLogix - AI Solutions (@botlogix). Address one common fear local business owners have about marketing on Instagram. Use a clear hook, simple language, local angle for Burlington, Halton, and end with a CTA to start a conversation.

FAQ POST

Act as a social media strategist for a Burlington, Halton marketing agency called BotLogix - AI Solutions (@botlogix). Answer one frequently asked question your clients ask before buying. Use a clear hook, simple language, local angle for Burlington, Halton, and end with a CTA to start a conversation.

When to measure

Early wins show up as profile visits, saves, comments, and DMs — not just followers.

1

7-day checkpoint

June 4, 2026

Measure: Profile visits, saves, comments, and DMs

Good: At least one local post published, bio updated, and 2+ meaningful interactions

Adjust: Tighten the hook, add a clearer CTA, or post on a different day/time

2

14-day checkpoint

June 11, 2026

Measure: Posting rhythm, reach on local posts, and repeat engagement

Good: 3+ posts in 14 days with consistent local hashtags and location tags

Adjust: Reuse the best-performing format and cut the weakest post type

3

30-day checkpoint

June 27, 2026

Measure: Follower trend, profile visits, saves, shares, DMs, and local reach

Good: Higher profile visits or DMs even if follower growth is still modest

Adjust: Run the same audit again and compare score movement by category

METRICS TO WATCH

Profile visits · Follows · Saves · Shares · Comments · DMs · Reach on local posts · Reel watch time (if available)

Your monthly check-in

Save this workbook. Execute the sprint. On **June 27, 2026**, run the same analysis again — we compare scores, competitors, hashtags, and what actually moved.

30

DAYS TO NEXT AUDIT

June 27, 2026

TARGET REVIEW DATE

BRING THESE TO YOUR REVIEW

- Profile visits, reach, saves, shares, comments, DMs (28-day trend)
- Your 3 best posts + 2 worst — what was different?
- Which fixes from this deck you completed (check tear-off sheet)
- Any new competitor accounts you noticed locally

WHY BUSINESSES COME BACK EVERY MONTH

Instagram shifts weekly. Competitors post. Hashtags change. A monthly BotLogix review turns guessing into a system: fresh data, updated leaderboard, new copy-paste actions. *(Subscription pricing is coming — your first audit is the baseline.)*

Prepared for **BotLogix - AI Solutions**. Pin **June 27, 2026** on your calendar — that is when this document pays off twice.

Your workbook in one glance

You do not need to understand Instagram analytics. Follow this workbook for 30 days, then come back on **June 27, 2026**.
